Quality, strength, durability, efficiency & the style of steel

Tanksalot® manufactures and supplies quality, long lasting, custom-made AQUAPLATE® steel water tanks and water tank accessories.

Our tanks are backed by a 20 year warranty against corrosion and a 10 year construction warranty.

Your water tank

- » New Zealand made using quality Bluescope AQUAPLATE® steel.
- » Available as retention (reuse), detention (slow release) and dual purpose.
- » Includes inlet leaf screen and solar shield, outlet, and fitted overflow.
- » Won't buldge or bow like a plastic tank.
- » No BPA and no UV stabilisers as found in plastic tanks.
- » Meets AS/NZ4020 standards for storage of drinking water.

Your choice

- » Choose from four different shapes.
- » Custom dimensions made to fit your space.
- » Available in a range of Colorbond® colours to match your style.
- » Option to select fitting positions to save plumbing time and expense.
- » Quality optional accessories.
- » Can be placed onto a concrete pad or an engineered timber platform.
- » Seismic tank restraint system available (PSI).
- » Nationwide delivery available.

Steel Tank Experts	Custom Made	Quality Guaranteed	Proudly NZ Made	Nationwide Delivery
				

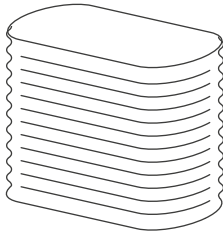

Choose your tank in 5 easy steps

1 Select your shape

Choose the tank that best suits your unique space and needs.

Slimline

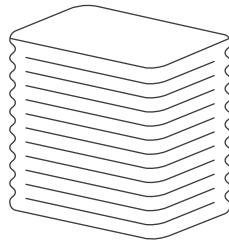

Tank capacities
500-10,000 litres

A great choice for tight spaces, allowing you to maximise the water storage capacity of the area available.

Modline

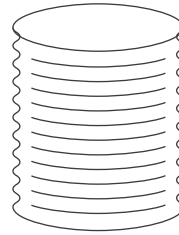

Tank capacities
770-10,000 litres

Flat ends give these tanks a modern look and a smaller footprint than the equivalent capacity Slimline tank.

Round

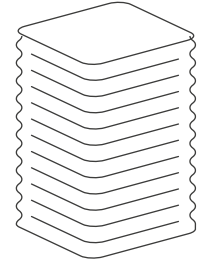

Tank capacities
500-24,500 litres

Traditional round water tanks remain a popular choice, space permitting.

Square

Tank capacities
530-9,000 litres

The square shape gives these tanks a smaller footprint than the equivalent capacity Slimline or Modline tanks.

2 Select your size

Choose from our standard sizes or thousands of different custom tank combinations.

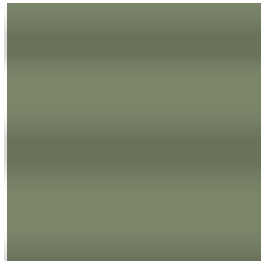

3 Select your colour

Colorbond®

Choose from a range of Colorbond® colours, or go for a galvanised steel finish.

Galvanised

Pale Eucalypt®

Paperbark®

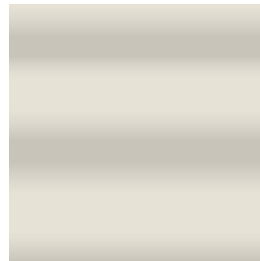

Woodland Grey®

Monument®

Dune®

Surfmist®

Shale Grey™

The Colorbond® steel colour swatches shown have been reproduced to represent actual product colours as accurately as possible. Varying light conditions and limitations of the printing process may affect colour tones.

4 Select your fittings positions

Choose where the included fittings need to be positioned on your tank.

INLET

400mm inlet leaf screen & solar shield

OUTLET

25mm outlet

OVERFLOW

100mm overflow

5 Select optional accessories

Kingspan High-Flow Filter

Designed to stop the common issue of overflow flooding or dampness around your tank, the High-Flow Filter is one of the most efficient tank filtration systems on the market.

The High-Flow Filter can manage water flow rates of up to 600 litres per minute* while still supplying water to the tank and bypassing the excess volume to the stormwater management system.

*Approximately 4 times the typical volume capacity of other standard leaf strainers.

Additional accessories

We have a range of tank fittings, water pumps, water filters, tank level gauges, and other accessories available to complement your specific water tank requirements.
